

IMPORTANT SAFETY RECALL

NHTSA Recall No. 19V-153

March 29, 2019

This notice applies to your Goshen Coach bus with the following VIN: VIN document attached.

Dear Customer:

This letter is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Eldorado National Kansas has decided that a noncompliance with FMVSS 207 Seating Systems exists in certain buses equipped with Freedman GO-ES Foldaway Seats. These seats may have been manufactured with a back-frame weldment that is too narrow resulting in deformation of the seat back cushion dump mechanism which may cause it to malfunction. If this mechanism does malfunction the seat back cushion may not support the appropriate loading in the event of a front or rear vehicle collision.

What is being recalled:

Certain Impulse units equipped with Freedman GO-ES Foldaway Seats manufactured between 1/1/2014 and 7/1/2018.

Why is it being recalled:

These seats may have been manufactured with a back-frame weldment that is too narrow resulting in deformation of the seat back cushion dump mechanism which may cause it to malfunction. If this mechanism does malfunction the seat back cushion may not support the appropriate loading in the event of a front or rear vehicle collision.

During the operation of the seat and, specifically, in rotating the seat back cushion from the stowed to the upright, design use position there needs to be an audible click of the mechanism locking into position. In addition, the mechanism handle will rotate downwards. There may be some seats where the mechanism does not fully engage during this operation of the seat back cushion.

What you should do:

To correct this condition, FREEDMAN SEATING COMPANY will facilitate the inspection and any necessary repairs. An Inspection & Service Procedure is attached that provides instruction on how to inspect the seat and repair it if necessary. These documents can also be found here:
