Subject	Parts Available for Ordering: 2019 CR-V Steering Wheel Cable Reel Recall
----------------	--

On May 21, 2019, American Honda notified NHTSA of a stop sale and safety recall for certain model year 2019 CR-V vehicles in which the steering wheel cable reel or cable reel sub-wire harness may be damaged by a burr on the steering wheel metal center sub core. Later on June 29, 2019, American Honda has expanded the affected population to include additional 2019 CR-V vehicles.

Effective Thursday August 8th, at approximately 1 PM EST, repair kits will be available for dealer ordering. Currently repair kits are available in limited quantities with additional regular incoming shipments planned. American Honda recommends that you use repair kits to satisfy current in-service vehicles.

Service bulletin 19-062, *Safety Recall: 2019 CR-V Cable Reel and Sub-Wire Harness* has been posted to the Service Information System (SIS). This bulletin contains warranty, parts, tools, and repair information related to this recall campaign.

As always, be sure to do an iN VIN status inquiry for all vehicles passing through your dealership to determine eligibility for any open campaigns.

Thank You,

American Honda Motor Co., Inc.
