IMPORTANT SAFETY RECALL

Occupant Restraint Controller

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US has decided that a defect, which relates to motor vehicle safety, exists in certain [2019 Model Year (BV) Jeep Renegade] vehicles.

WHY DOES MY VEHICLE NEED REPAIRS?

Vehicles ^[1] equipped with the Upland trim package and an Occupant Restraint Controller (ORC) calibrated to non-Upland trim package that are involved in a frontal collision with a longitudinal delta-V below 16 MPH sufficient to trigger low-output air bag deployment (stage 1 only) may experience a high-output air bag deployment (stage 1 and stage 2). **High-output air bag deployment in low speed vehicle crashes that would otherwise call for low-output air bag deployment in the suspect vehicles may increase the risk of injury to front seat vehicle occupants during a crash.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

The remedy for this condition is not currently available. We are making every effort to finalize the remedy as quickly as possible, and will service your vehicle free of charge (parts and labor).

FCA US will contact you again, by mail, with a follow-up recall notice when the remedy is available. Once you receive your follow-up notice, simply contact your Chrysler, Jeep®, Dodge or RAM dealer right away to schedule a service appointment ^[2]. Additional options for your next steps are included on the left side of this notification. We appreciate your patience.

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit www.fcarecallreimbursement.com to submit your reimbursement request online ^[3]. Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.

DEALERSHIP INSTRUCTIONS

Please reference Safety Recall V73.

Mr. Mrs. Customer
1234 Main Street
Hometown, MI 48371

[1] If you no longer own this vehicle, please help us update our records. Call the FCA Recall Assistance Center at 1-800-853-1403 to update your information.

[2] If your dealer fails or is unable to remedy this defect without charge and within a reasonable time, you may submit a written complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., S.E., Washington, DC 20590, or you can call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to safercar.gov.

[3] You can also mail in your original receipts and proof of payment to the following address for reimbursement consideration: FCA Customer Assistance, P.O. Box 21-8004, Auburn Hills, MI 48321-8007, Attention: Recall Reimbursement.

Note to lessors receiving this recall notice: Federal regulation requires that you forward this recall notice to the lessee within 10 days.

New Safety Recall Advanced Communication – V73

FCA US LLC (FCA US) has announced a safety recall on certain 2019 Model Year (BV) Jeep® Renegade vehicles.

VINs identified as being involved in this campaign are currently live and searchable.
Stop sale is in effect for the above-identified vehicles.

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Vehicles equipped with the Upland trim package and an Occupant Restraint Controller (ORC) calibrated to non-Upland trim package that are involved in a frontal collision with a longitudinal delta-V below 16 MPH sufficient to trigger low-output air bag deployment (stage 1 only) may experience a high-output air bag deployment (stage 1 and stage 2). High-output air bag deployment in low speed vehicle crashes that would otherwise call for low-output air bag deployment in the suspect vehicles may increase the risk of injury to front seat vehicle occupants during a crash.

SERVICE ACTION

FCA US will conduct a voluntary safety recall. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2019.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
