Recall Alerts

То:	U.S. and Canada Distributors Dealer Principals Service Managers Warranty Managers Parts Managers	Region:	⊠U.S. ⊠CAN	Bulletin: SRA-V19-04b Date: July 12, 2019 Valid to: N/A Action Required? □Yes □No
From: Subject:	Gerard Hones, Regulatory Specialist Government Reporting Safety Recall RVXX1904, I-Shift Transmission Auxiliary Air Tank rev			

Description of Defect:

On certain vehicles, the torque applied to the t-bolt clasps on the transmission auxiliary air tank straps may have been over-torqued potentially causing deformation to the strap where the t-bolt is anchored. The deformation may allow the t-bolt to disconnect from the strap allowing the tank to drop to the ground, which may result in debris on the road presenting a risk to other road users.

Models/ Model Years Affected:

Volvo: Certain MY 2019-2020 VAH, VHD, VNL and VNM models manufactured from April 1, 2018 through March 31, 2019.

Vehicle Quantities:

Volvo: Approximately 29,793 vehicles (24,848 in the U.S., 4,464 in Canada and 481 in Mexico).

Dealer's Responsibility:

The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act requires dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.

Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Release Schedule:

- Vehicle list will be posted on the Trucks Dealer Portal July 12, 2019 (revised counts July 19, 2019).
- Owner notification letters will be released on or before August 19, 2019.

If you have questions or concerns about this recall, contact the Regulatory Affairs Department at vtna.regulatoryaffairs@volvo.com.
