

Original Publication Date: September 19, 2019

To: All Toyota Dealer Principals, General Managers, Service Managers, and Parts Managers

**SAFETY (NONCOMPLIANCE) RECALL K0L** *(Remedy Notice)*

Certain 2020 Model Year Corolla Hybrid  
 Certain 2019 Model Year Rav4 Hybrid  
 Certain 2019 – 2020 Model Year Prius Prime  
 Certain 2019 Model Year Prius  
 Potential Loss of Power Brake Assist  
 NHTSA Recall No. 19V-544

Model / Years	Production Period	Approximate Total Vehicles	Approximate Stop Sale Dealer Inventory
2020 Corolla Hybrid	April 2019 – May 2019	750	97
2019 Rav4 Hybrid	April 2019 – June 2019	3,300	27
2019 – 2020 Prius Prime	April 2019 – May 2019	400	131
2019 Prius	April 2019 – May 2019	2,050	796

**STOP! DO NOT SELL NEW VEHICLES IN DEALER INVENTORY.***Refer to Dealer Inventory Procedures section for more details.*

On July 24 2019, Toyota filed a Noncompliance Information Report (NCIR) with the National Highway Traffic Safety Administration (NHTSA) informing the agency of our intent to conduct a voluntary Safety (Noncompliance) Recall on certain 2020 model year Corolla Hybrid, certain 2019 model year Rav4 Hybrid, certain 2019 – 2020 model year Prius Prime and certain 2019 model year Prius vehicles.

**Condition**

In the subject vehicles, there is a possibility the brake booster pump may have been manufactured improperly, and in some cases, it may stop operating. If the brake booster pump stops operating, multiple warning lights and messages will illuminate, and/or audible chimes will sound. In this condition, braking assist could be lost completely after several brake pedal applications, resulting in increased stopping distance. In addition, the Vehicle Stability Control will become deactivated, and other vehicle features could be affected. Deactivating the Vehicle Stability Control system may cause the subject vehicles to not meet the certain requirements of FMVSS No. 126. A deactivated Vehicle Stability Control or a sudden and complete loss of braking assist while driving could increase the risk of a crash.

### **Remedy**

Based on the vehicle identification number or an inspection, the dealer will replace the brake booster pump with a new one, if necessary, **FREE OF CHARGE**.

### **Covered Vehicles**

There are approximately 6,500 vehicles covered by this Safety (Noncompliance) Recall. Approximately 8 vehicles involved in this Safety (Noncompliance) Recall were distributed to Puerto Rico.

### **Owner Letter Mailing Date**

Toyota will begin to notify owners in mid-September 2019. A sample of the owner notification letter has been included for your reference.

*Toyota makes significant effort to obtain current customer name and address information from each state through industry resources when mailing owner letters. In the event your dealership receives a notice for a vehicle that was sold prior to the Safety (Noncompliance) Recall announcement, it is the dealership's responsibility to forward the owner letter to the customer who purchased the vehicle.*

Please note that only owners of the covered vehicles will be notified. If you are contacted by an owner who has not yet received a notification, please **verify eligibility by confirming through TIS prior to performing repairs**. Dealers should perform the repair as outlined in the Technical Instructions found on TIS.

## Dealer Inventory Procedures

### New Vehicles in Dealership Inventory

There are approximately 1,051 vehicles in new dealer inventory as of September 19, 2019

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Toyota reimburses dealers for flooring costs associated with new vehicles held in dealership inventory until the recall remedy becomes available. Toyota provides these flooring reimbursements at 60-day intervals. Toyota reserves the right to withhold or charge-back any flooring reimbursement funds that may have been paid to the dealer if it determines that a new vehicle subject to a safety recall was sold without first being remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

#### NOTE:

- *New vehicles in dealer inventory subject to a Safety Recall must be remedied before delivery into commerce under a sale or lease. Dealer-to-dealer trades as well as vehicle sales between dealers should not be made until a vehicle is remedied.*
- Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (<https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

**Inspection Reminder Mirror Hang Tags for Covered Vehicles in New Dealer Stock**

To easily recognize vehicles involved in this Safety (Noncompliance) Recall, each dealership should utilize Inspection Reminder Hang Tags. Inside the vehicle's glove box are stickers containing the VIN. Apply one of these stickers to the hang tag and install the hang tag in the vehicle. A sample copy of the Inspection Reminder Hang Tag has been included for your reference.

NOTE: Dealerships can order hang tags from the Material Distribution Center (MDC).

Part Number	Description	Quantity
00411-140003	Inspection Mirror Hang Tag	25 Per Pack

**Pre-Owned Vehicles in Dealer Inventory**

To ensure customer satisfaction, Toyota requests that dealers complete this Safety Recall on any used vehicles currently in dealer inventory that are covered by this Safety Recall prior to customer delivery. However, if the campaign cannot be completed (for example, due to remedy parts availability), delivery of a covered vehicle is acceptable if disclosed to the customer that the vehicle is involved in a Safety Recall.

Toyota expects dealers to use the attached Customer Contact and Vehicle Disclosure Form to obtain vehicle buyer information. Dealers are expected to provide a copy of the completed form, along with the most current FAQ, to the vehicle buyer. Toyota and the dealer may use this information to contact the customer when the remedy becomes available.

Keep the completed form on file at the dealership and send a copy to [quality\\_compliance@toyota.com](mailto:quality_compliance@toyota.com). In the subject line of the email state, "Disclosure Form K0L/K1L" and include the VIN.

**NOTE:** Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (<https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

**Toyota Certified Used Vehicle (TCUV)**

The TCUV policy prohibits the certification of any vehicle with an outstanding Safety Recall, Special Service Campaign, or Limited Service Campaign. Thus, no affected units are to be designated, sold, or delivered as a TCUV until all applicable Safety Recalls, Special Service Campaigns, and Limited Service Campaigns have been completed on that vehicle.

**Toyota Rent-A-Car (TRAC) & Service Loaners**

Toyota requests that dealers remove all TRAC and Service Loaner vehicles from service that are covered by a Safety Recall unless the defect has been remedied.

## Customer Handling, Parts Ordering, and Remedy Procedures

**Customer Contacts**

Customers who receive the owner letter may contact your dealership with questions regarding the letter and/or the Safety (Noncompliance) Recall. Please welcome them to your dealership and answer any questions that they may have. A Q&A is provided to assure a consistent message is communicated.

Customers with additional questions or concerns are asked to please contact the Toyota Customer Experience Center (1-888-270-9371) - Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

**Media Contacts**

It is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Tania Saldana (859) 815-9968 in Toyota Corporate Communications. Please do not provide this number to customers. Please provide this contact only to media.

**Parts Ordering Process - Non SET and GST Parts Ordering Process**

It is possible that parts for this campaign are either required to be ordered in Campaign Part Order Request (CPOR) on Service Lane, or have been placed on Manual Allocation Control (MAC) due to potential limited part availability. Please check the CPOR/MAC report on Dealer Daily for the most up-to-date parts ordering information.

All Safety Recall, Service Campaign (SSC/LSC) parts are eligible for the Monthly Parts Return Program. Please refer to PANT Bulletin [2011-087](#) for campaign parts that are currently returnable under the Monthly Parts Return Program and for additional details.

Part Number	Description	Quantity
04009-56647	Prius - Brake Booster Pump Assembly	1
	Prius Prime - Brake Booster Pump Assembly	1
	Corolla Hybrid - Brake Booster Pump Assembly	1
04009-56942	Rav4 Hybrid - Brake Booster Pump Assembly	1

**Technician Training Requirements**

The repair quality of covered vehicles is extremely important to Toyota. All dealership technicians performing this repair are required to successfully complete the most current version of the E-Learning course "Safety Recall and Service Campaign Essentials". To ensure that all vehicles have the repair performed correctly; technicians performing this repair are required to currently hold at least one of the following certification levels:

- Certified Technician (Chassis)
- Expert Technician (Chassis)
- Master Technician
- Master Diagnostic Technician

Always check which technicians can perform the repair by logging on to <https://www.uotdealerreports.com>. It is the dealership's responsibility to select technicians with the above certification level or greater to perform this repair. Carefully review your resources, the technician skill level, and ability before assigning technicians to this repair. It is important to consider technician days off and vacation schedules to ensure there are properly trained technicians available to perform this repair at all times.

**Remedy Procedures**

Refer to TIS for Technical Instructions on repair. Conduct all non-completed Safety Recalls and Service Campaigns on the vehicle during the time of appointment.

**Repair Quality Confirmation**

The repair quality of covered vehicles is extremely important to Toyota. To help ensure that all vehicles have the repair performed correctly, please designate at least one associate (someone other than the individual who performed the repair) to verify the repair quality of every vehicle prior to customer delivery.

**Parts Recovery Procedures**

All parts replaced as part of this Safety Recall must be turned over to the parts department until appropriate disposition is determined. The parts department must retain these parts until notification via the Parts Recovery System (PRS) is received indicating whether to ship or scrap the parts. These parts are utilized by various departments for defect analysis, quality control analysis, product evaluation, as well as other purposes.

To help minimize dealer storage challenges, Toyota recommends that dealers:

- File the campaign claim accurately and promptly. The time a dealer is required to hold parts is based on when the campaign claim is paid by Toyota.
- Monitor the Warranty Parts Recovery Notifications and Part Scrap Report regularly.

Refer to Warranty Policies [9.3 and 9.6](#) for additional details.

## Warranty Reimbursement Procedures

### Loaner Vehicle or Alternative Transportation Reimbursement Procedure

For customers who requested a loaner vehicle or alternative transportation in the interim phase, a loaner vehicle or alternative transportation through Toyota Rent-A-CAR (TRAC) can be claimed for \$35 per day.

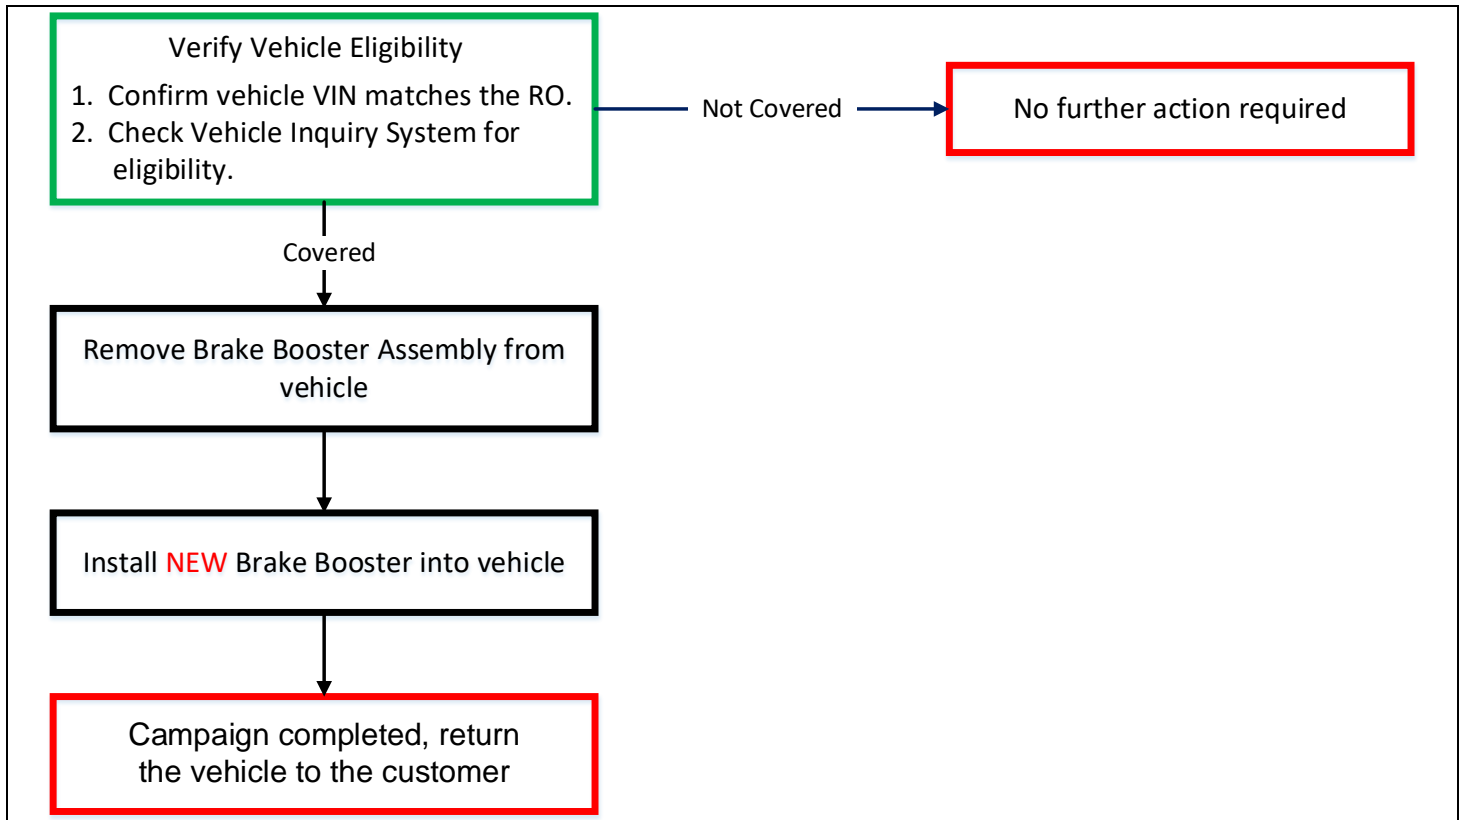

Op Code	Description
K0LRT1	Vehicle Rental 1-30 Days
K0LRT2	Vehicle Rental 31-50 Days

**NOTE:**

- Rental invoice **MUST** be attached to all rental claims. These claims may be subject to debit if rental invoice is not attached.
- Rentals that exceed the maximum allowable daily rate will require DSPM authorization per the Toyota Transportation Assistance Policy (TTAP).

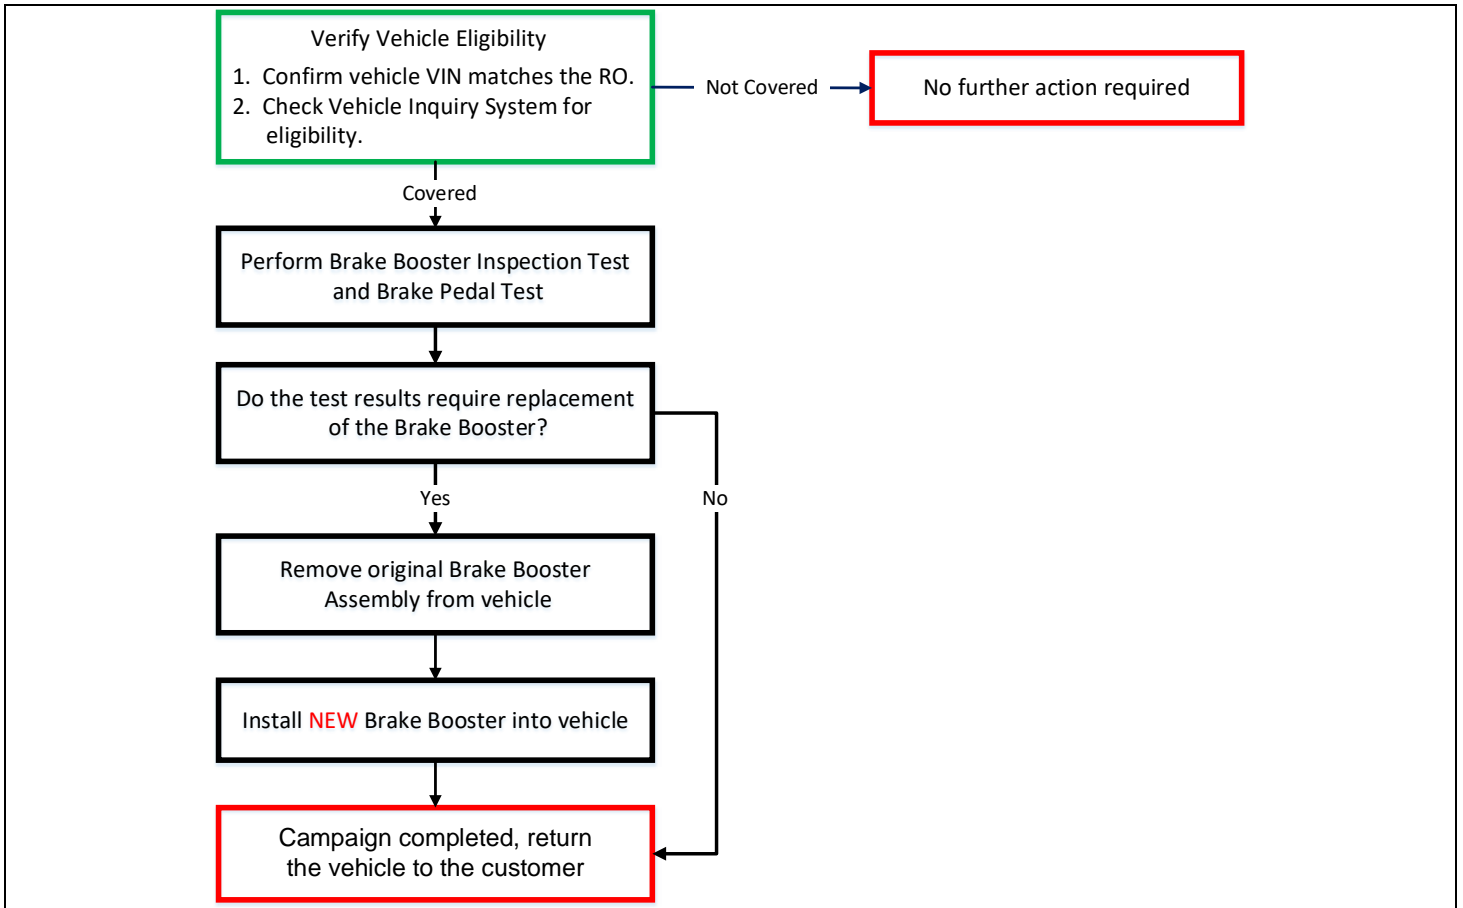

### Warranty Reimbursement Procedure

Certain 2019 Model Year Rav4 Hybrid

**Warranty Reimbursement Procedure**

Certain 2020 Model Year Corolla Hybrid  
 Certain 2019 – 2020 Model Year Prius Prime  
 Certain 2019 Model Year Prius

Op Code	Description	Flat Rate Hours
K0L001	Prius, Prius Prime and Corolla Hybrid - Brake Booster Pump Assembly Inspection, No Replacement Necessary	0.8
K0L002	Prius - Brake Booster Pump Assembly Inspection and Brake Booster Pump Assembly Replacement	5.1
K0L003	Prius Prime - Brake Booster Pump Assembly Inspection and Brake Booster Pump Assembly Replacement	5.1
K0L004	Corolla Hybrid - Brake Booster Pump Assembly Inspection and Brake Booster Pump Assembly Replacement	5.1
K0L005	Rav4 Hybrid - Brake Booster Pump Assembly Inspection and Brake Booster Pump Assembly Replacement	6.0

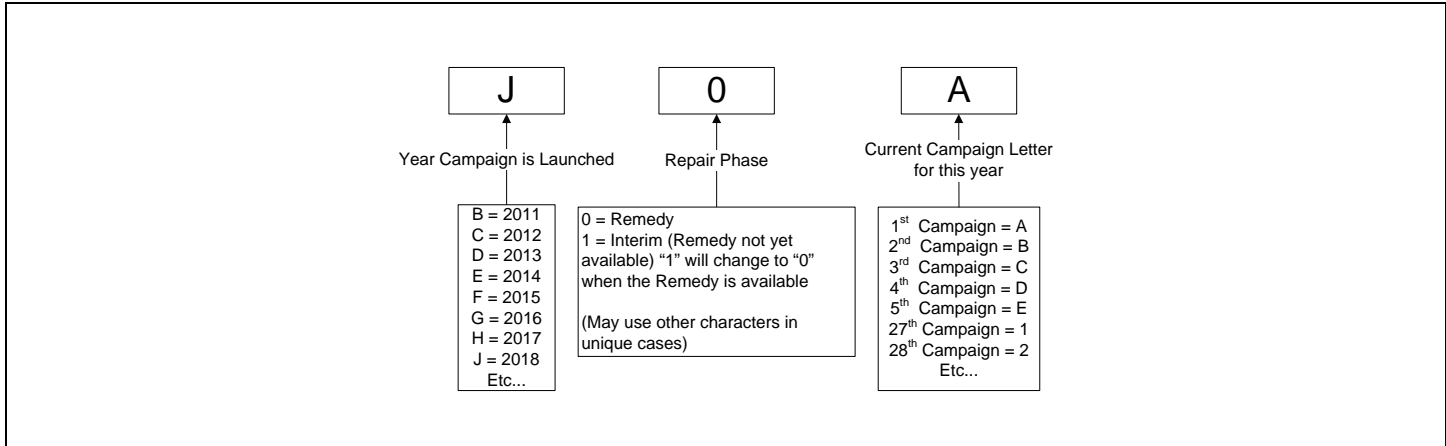

- The flat rate times include 0.1 hours for administrative cost per unit for the dealership.
- Dealers may claim the cost of brake fluid up to \$44.00 per vehicle as a sublet type "OF" under remedy Op codes K0L002, K0L003, K0L004 and K0L005
- A loaner vehicle or alternative transportation through the Toyota Rent-A-Car (TRAC) can be claimed up to a maximum of 1 day at a maximum cost of \$35.00 as a sublet type "RT" under remedy Op codes K0L002, K0L003, K0L004 and K0L005.

**Claim Filing Accuracy and Correction Requests**

It is the dealer’s responsibility to file claims correctly for this Safety (Noncompliance) Recall. This claim filing information is used by Toyota for various government reporting activities; therefore, claim filing accuracy is crucial. If it has been identified that a claim has been filed using an incorrect Op Code or a claim has been filed for an incorrect VIN, refer to Warranty Procedure Bulletin [PRO17-03](#) to correct the claim.

**Campaign Designation / Phase Decoder**

**Examples:**

C1B = Launched in 2012, Interim Phase, 2<sup>nd</sup> Campaign Launched in 2012  
 E0A = Launched in 2014, Remedy Phase, 1<sup>st</sup> Campaign Launched in 2014  
 J0A = Launched in 2018, Remedy Phase, 1<sup>st</sup> Campaign Launched in 2018.

*Please review this entire package with your Service and Parts staff to familiarize them with the proper step-by-step procedures required to implement this Safety (Noncompliance) Recall.*

Thank you for your cooperation.  
 TOYOTA MOTOR SALES, U.S.A., INC.

### Frequently Asked Questions

Original Publication Date: September 19, 2019

**Q1:** *What is the condition?*

A1: In the subject vehicles, there is a possibility the brake booster pump may have been manufactured improperly, and in some cases, it may stop operating. If the brake booster pump stops operating, multiple warning lights and messages will illuminate, and/or audible chimes will sound. In this condition, braking assist could be lost completely after several brake pedal applications, resulting in increased stopping distance. In addition, the Vehicle Stability Control will become deactivated, and other vehicle features could be affected. Deactivating the Vehicle Stability Control system may cause the subject vehicles to not meet the certain requirements of FMVSS No. 126. A deactivated Vehicle Stability Control or a sudden and complete loss of braking assist while driving could increase the risk of a crash.

**Q1a:** *What is the Brake Booster Pump?*

A1a: A brake booster pump is a component of the brake system which provides power and controls fluid pressure.

**Q2:** *Are there any warnings that this condition exists?*

A2: No. However, if the condition occurs, multiple warning lights and messages will illuminate, and audible chimes will sound prior to losing power brake assist.

				
Master Warning Light (Yellow)	Brake System Warning Light and Warning Buzzer (Red)	Brake System Warning Light (Red)	ABS Warning Light (Yellow)	SLIP Indicator (Yellow)

**NOTE:** It is possible for the lights above to be illuminated and the condition not be related to this Safety (Noncompliance) Recall.

**Q3: *If the condition occurs, will the brakes remain operational?***

A3: If the condition has occurred, the brakes will remain operational. However, the condition may result in loss of the power braking assist feature and, therefore, more force may need to be applied to the brake pedal to stop the vehicle.

**Q4: *What is Toyota going to do?***

A4: Based on the vehicle identification number or an inspection, any authorized Toyota dealer will replace the brake booster pump with a new one, if necessary, FREE OF CHARGE.

**Q5: *How long will the repair take?***

A5: The inspection will take approximately one hour. If the brake booster pump needs to be replaced, it will take approximately five additional hours. For vehicles that do not require an inspection, brake booster pump replacement will take approximately six hours. However, depending upon the dealer's work schedule, it may be necessary to make the vehicle available for a longer period of time.

**Q6: *Which and how many vehicles are covered by this Safety (Noncompliance) Recall?***

A6: There are approximately 6,500 vehicles covered by this Safety (Noncompliance) Recall.

Model Name	Model Year	Approximate total Vehicles	Production Period
Corolla Hybrid	2020	750	Late April 2019 – Late May 2019
RAV4 Hybrid	2019	3,300	Late April 2019 – Early June 2019
Prius Prime	2019 - 2020	400	Late April 2019 – Late May 2019
Prius	2019	2,050	Late April 2019 – Late May 2019

**Q6a: *Are there any other Lexus/Toyota/Scion vehicles covered by this Safety (Noncompliance) Recall in the U.S.?***

A6a: Yes, certain 2019 ES 300 Hybrid, certain 2019 UX 250 Hybrid, certain 2019 LS 500/ LS 500 Hybrid and certain LC 500 vehicles are covered by this Safety (Noncompliance) Recall.

**Q7: *How does Toyota obtain my mailing information?***

A7: Toyota uses an industry provider who works with each state's Department of Motor Vehicles (DMV) to receive registration or title information, based upon the DMV records. Please make sure your registration or title information is correct.

**Q8: *What if I have additional questions or concerns?***

A8: If you have additional questions or concerns, please contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

## URGENT SAFETY RECALL

This is an important Safety Recall. The remedy will be performed **FREE OF CHARGE** to you.

## IMPORTANT SAFETY RECALL (*Remedy Notice*)

### Certain 2019 Model Year Rav4 Hybrid Potential Loss of Power Brake Assist NHTSA Recall No. 19V-544

Dear (customer's First/Last name)

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Toyota has decided that certain 2019 model year Rav4 Hybrid vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 126, Electronic Stability Control Systems.

You received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

#### What is the condition?

In the subject vehicles, there is a possibility the brake booster pump may stop operating. Braking assist could be lost completely after several brake pedal applications, resulting in increased stopping distance. Also, the Vehicle Stability Control will become deactivated, and other vehicle features could be affected. Deactivating the Vehicle Stability Control system may cause the subject vehicles to not meet the certain requirements of FMVSS No. 126. **A deactivated Vehicle Stability Control or a sudden and complete loss of braking assist while driving could increase the risk of a crash.**

#### What should you do?

Please contact any authorized Toyota dealer to schedule an appointment to have the remedy performed as soon as possible. **The remedy will require parts replacement. We recommend you contact your dealer to schedule an appointment in advance to confirm parts availability and minimize your inconvenience. Your local Toyota dealer will be more than happy to answer any of your questions.**

- ✓ To find a dealer near you, visit [www.toyota.com/dealers](http://www.toyota.com/dealers).
- ✓ For more information on this and other Safety Recalls, including Frequently Asked Questions, visit [www.toyota.com/recall](http://www.toyota.com/recall). Input your full 17-digit Vehicle Identification Number (VIN) noted above to review information specific to your vehicle.
- ✓ If you require further assistance, you may contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

## What will Toyota do?

Any authorized Toyota dealer will replace the brake booster pump with a new one, **FREE OF CHARGE** to you.

### *This is an important Safety Recall*

Brake booster pump replacement will take approximately six hours. However, depending on the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time. To minimize your inconvenience, your Toyota dealer may offer you a **FREE** loaner vehicle while the repair is being completed on your vehicle.

If the condition occurs, multiple warning lights and messages will illuminate, and audible chimes will sound prior to losing power brake assist.

				
Master Warning Light (Yellow)	Brake System Warning Light and Warning Buzzer (Red)	Brake System Warning Light (Red)	ABS Warning Light (Yellow)	SLIP Indicator (Yellow)

**NOTE:** It is possible for the lights above to be illuminated and the condition not be related to this Safety (Noncompliance) Recall.

If the vehicle is experiencing the condition described and you are unable to drive the vehicle to the dealership, please contact your local authorized Toyota dealer who will arrange for vehicle pickup.

## What if you are not the owner or operator of this vehicle?

*If you are a vehicle lessor*, Federal Law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

*If you know the current owner or operator*, please forward this letter to them.

*If you would like to update your vehicle ownership or contact information*, you may do so by registering at [www.toyota.com/owners](http://www.toyota.com/owners). You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

If you believe that the dealer or Toyota has failed or is unable to remedy the defect within a reasonable time or without charge, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, D.C. 20590, or call the toll free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to <http://www.safercar.gov>.

We have sent this notice in the interest of your continued satisfaction with our products. We sincerely regret any inconvenience this condition may have caused you.

Thank you for driving a Toyota.

Sincerely,

Toyota Motor Sales, USA
