To: All General Motors Dealers

On October 24, 2019, General Motors released Safety Recall N192261050 under GCUS-3-1646. Software was available for model year 2019-2020 Chevrolet Suburban, Chevrolet Tahoe, and GMC Yukon vehicles. Software should be available for the balance of the vehicle population in the very near future. The total number of U.S. vehicles involved for this field action has expanded by an additional 444 vehicles.

Global Warranty Management (GWM)

The Investigate Vehicle History (IVH) screen in the GWM system will be updated today, October 31, 2019. Please hold all warranty transactions until IVH has been updated.
