VOLVO

**IMPORTANT SAFETY RECALL RVXX1901
NHTSA RECALL # *******

DEAR VOLVO TRUCK OWNER:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Volvo Trucks North America has decided that a defect which relates to motor vehicle safety exists in certain Volvo 2018 and 2019 VNL model vehicles manufactured from April 3, 2017 through June 11, 2018 with an Eaton automated manual transmission.

SAFETY DEFECT: On certain vehicles equipped with an Eaton automated manual transmission and electronic clutch actuator (ECA), a manufacturing problem could cause the clutch to fail. If this occurs, the broken clutch components could prevent the transmission from disengaging or shifting to neutral.

SAFETY RISK: If the transmission does not disengage, the vehicle could move unexpectedly, even if the parking brake is applied. This could increase the risk of a crash.

PRECAUTIONS YOU CAN TAKE: There are no precautions you can take other than having your vehicle inspected and repaired if needed by a Volvo Parts and Service Center.

TIME REQUIRED FOR THE REPAIR: The time required to repair your vehicle is approximately 1 hour.

WHAT YOU SHOULD DO: You should contact the nearest Volvo Parts and Service Center and make an appointment. The Transmission Control Module (TCM) software will be updated at **no charge** to you.

You can locate the closest Volvo Parts and Service Center by going on line to <http://www.volvo.com/trucks/na/en-us/dealers/> and selecting "Dealer Locator" or by calling our toll-free number: (800) 528-6586.
