

## IMPORTANT SAFETY RECALL

Mr.

April 16, 2019

**This notice applies to your vehicle: WP1AA2AYX.**

**Recall Number: 19V-111**

**Subject: Porsche Safety Recall AKA0 - Re-programming instrument cluster 2019 Model Year Porsche Cayenne and Cayenne S Vehicles**

Dear Mr.

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Porsche has decided that certain 2019 Model Year Porsche Cayenne and Cayenne S vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) number 111, "Rearview Mirrors." Our records show that you are the owner of a vehicle affected by this action.

**What is the issue?**

Due to a software issue, the rearview image on the dashboard touch display may be delayed when the vehicle is first shifted into Reverse. A rearview camera display that does not function as designed can reduce the driver's view of what is behind the car, increasing the risk of a crash.

**What will we do?**

Porsche will remedy this issue by having dealers re-program the affected software for free to prevent this issue from recurring.

**What should you do?**

Please always carefully check your surroundings and wait for the rearview image to display before reversing. Please make contact with your authorized Porsche dealership to schedule a remedy appointment, and to arrange in advance for a Porsche loaner vehicle should you require alternate transportation during the repair period. Re-programming is expected to take approximately one hour to complete.

**Lease vehicles and address changes**

If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter promptly via first-class mail to the lessee. If you have changed your address or sold the vehicle, please fill out the enclosed prepaid Owner Reply Card and mail it to us so we can update our records.

**Reimbursement**

This recall will be carried out at no expense to the customer.

**Can we assist you further?**

Please be aware that if, after we have notified you that replacement software for your vehicle is available, you require any assistance in making an appointment to have this recall performed, please call or write:
