IMPORTANT SAFETY RECALL

June 2019

This notice applies to your vehicle, **VIN:** _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2017-2019 model year Chevrolet Trax and Tracker vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM safety recall A182202370.
- Schedule an appointment with your GM dealer on or after July 01, 2019.
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

In some of these vehicles, a joint in one or both front lower-control arms may have been improperly welded. Over time, an improperly welded joint can fatigue and break, causing the lower-control arm to partially separate from the vehicle. If a lower-control arm partially separates from the vehicle, the front wheel attached to the control arm will toe outward, adversely affecting the vehicle's steering and potentially causing the tire to rub against the wheel well, increasing the risk of a crash.

What will we do?

Your lower control arms will be inspected using a gauge tool to determine if they meet manufacturing specifications. Dealers will replace lower control arms that do not pass the gauge inspection. This service will be performed for you at **no charge**.

What should you do?

You should contact your Chevrolet dealer to arrange a service appointment on or after July 01, 2019.

Did you already pay for this repair?
