Transmission Shift Lever Recall**

Dear

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Porsche has decided that a defect that relates to motor vehicle safety exists in certain 2003 – 2010 Porsche Cayenne and 2010-2016 Porsche Panamera vehicles. Our records show that you are the current owner of a vehicle affected by this recall.

**What is the issue?**

On your vehicle, the plastic bushing in the transmission shift lever mechanism could degrade over time. If this occurs, the transmission might not properly engage in the Park position. If the parking brake is not applied, an unintended movement of the vehicle could result, increasing the risk of a rollaway crash and injury.

**What will Porsche do?**

Porsche is conducting a safety recall and will remedy your vehicle at no charge to you for parts and labor. Your vehicle will receive a new plastic bushing in the transmission shift lever mechanism.

**What should you do?**

When parking, please **always set the parking brake** before exiting the vehicle.

Please contact any authorized Porsche dealer to schedule an appointment to have the remedy performed as soon as possible and to arrange for Porsche-provided alternate transportation.

To find your nearest authorized Porsche dealer, visit:
