Dear

This notice is sent to you in accordance with the National Traffic Safety Act. Genesis has decided that a defect which relates to motor vehicle safety exists in certain 2018 Genesis G80 vehicles produced between January 2017 through December 2017 and certain 2017 – 2018 Genesis G90 sedans produced from June 2016 through December 2017.

You have received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

What is the condition?

The turbocharger oil supply pipes in the subject vehicles may leak due to insufficient swaging pressure where the rubber hose is attached to the metal pipe. A leak from the oil supply pipe could result in oil contacting the exhaust manifold increasing the risk of a fire.

Your Genesis dealer will replace the oil supply pipes in your Genesis vehicle at **NO CHARGE** to you.

What should you do?

Please contact your nearest Genesis dealer to schedule the recall repair as soon as possible.

You may arrange in advance for a Courtesy Vehicle using Service Valet should you require alternate transportation during the service period.
