Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (“DAG”), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in a certain Model Year (“MY”) 2019 S-Class vehicle. Our records indicate that your vehicle is the affected vehicle.

What is the CONCERN?

DAG has determined that on a certain MY 2019 S-Class vehicle (222 platform), the A, B and C pillar covers might not be installed according to current production specifications. The incorrect installation of the A, B and C pillar covers could result in the detachment of the covers in the event of a crash necessitating the activation of the curtain airbag. Detachment of the covers could increase the risk of injury to vehicle occupants. Furthermore, the curtain airbag might not deploy as intended increasing the risk of injury in the event of a crash.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will check the installation of the pillar covers on the affected vehicle and rework, if necessary. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **1 hour**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.
