Safety Recall: Possible Tie-Rod Separation

NHTSA Recall: 19V728

Dear <First name, Last name>:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Arcimoto has decided that a defect which relates to motor vehicle safety exists in certain 2019 model year FUVs.

! IMPORTANT !

- Your vehicle is being recalled
- You should contact Arcimoto to schedule the repair at **no charge**

Why is your vehicle being recalled?

Due to uncontrolled changes to vehicle alignment, there may be inadequate thread length of engagement (LoE) between inner and outer tie-rods. If the LoE between inner and outer tie-rods is inadequate, certain forces may cause the separation of the tie-rod assembly, which would make the vehicle more difficult to control and increase the likelihood of a crash without warning.

What will we do?

A trained Arcimoto Service Technician will remedy the defect by reworking existing parts and realigning the vehicle. The repair procedure will be performed at **no cost** and can take up to one hour to complete.

What should you do?

Contact Arcimoto to schedule a service appointment.
