

Recall # 19V673

Interim or Temporary Repair

As a temporary repair the awning will have to remain strapped while the vehicle is in motion or when the vehicle is parked and the awning is not being used for camping purposes.

- 1) Use a ladder or suitable standing platform that will allow you to reach the top of the awning.
- 2) Using the elastic Velcro straps supplied with these instructions, secure the front and rear end of the lead rail to the awning case. Ensure the plastic loop is located underneath the awning case (this will avoid damaging the paint on the awning case). Ensure the strap is located behind the lip of the lead rail and awning end cap.

Time allotted 0.3 hours.

For Pleasure-Way dealers please follow the warranty claim system for payment.

For Non Pleasure-Way dealers or repair personnel, please contact Pleasure-Way Industries Ltd. at 1-800-364-0189 and speak with Jay, Michael or Phil, or email warranty@pleasureway.com . Payment will be made with a corporate Visa card.
