### Occupant and Cargo Carrying Capacity (OCCC) Label Replacement Instructions

#### **SERVICE ACTION:**

Replace incorrect labels with corrected OCCC information labels.

#### **Process:**

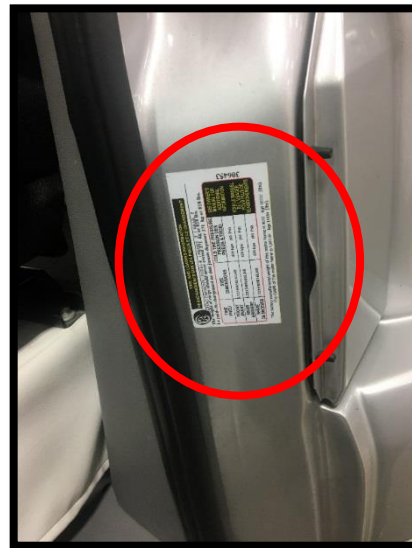

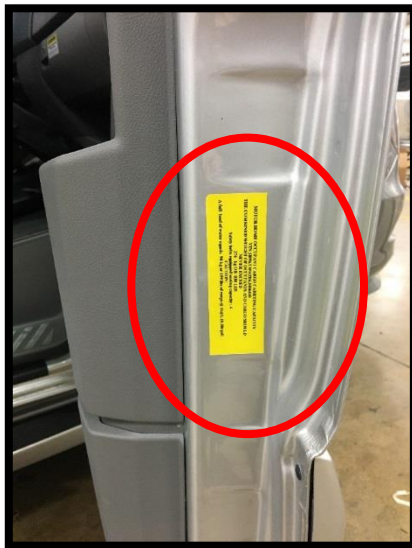

Clean area with alcohol, place corrected labels over incorrect labels.

#### **Equipment needed:**

- Alcohol (preferably denatured alcohol)
- Cloth Rag
- New Labels

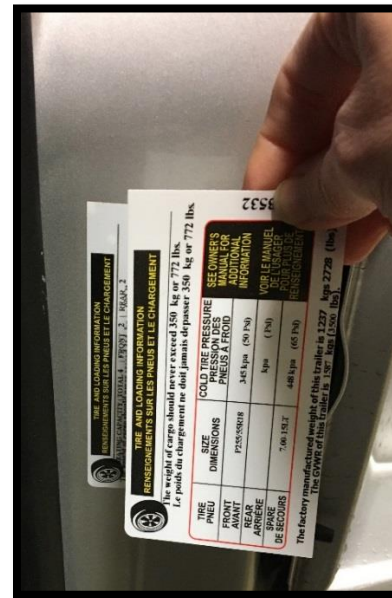

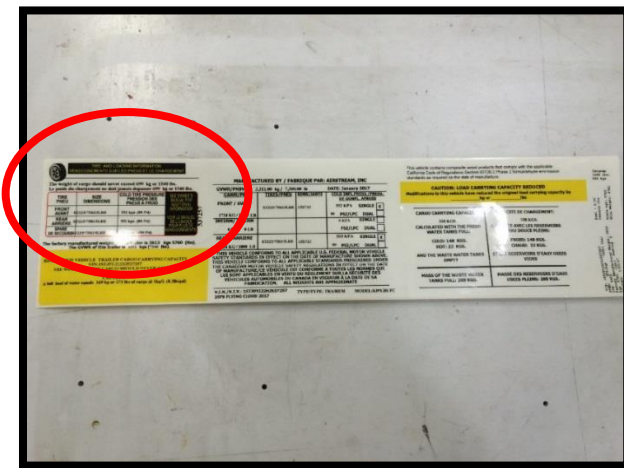

**Step 1:** Locate the labels that need to be replaced. Replace both the yellow Motor Home Occupant Cargo Carry Capacity Label on the Passenger Side Door and the white Cargo Carrying Capacity Label on the Driver's Side B-Pillar.

**Step 2:** Wipe directly over the existing labels with the denatured alcohol to clean the area.

**Step 3:** Remove the corrected "Tire and Loading Information" label and place it over the existing label on the Driver's Side B-Pillar.

**Step 4:** Remove the corrected "Motor Home Occupant Cargo Carrying Capacity" label and place it over the existing label on the Passenger Side Door.
