IMPORTANT SAFETY RECALL

**2011-2013 Mazda6, Front Cross Member Corrosion Safety Recall 28181
NHTSA 19V-323**

May 2020

This notice applies to your vehicle: 20xx Mazda ModelName VIN _____

Dear Mazda Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Mazda Motor Corporation has decided that a defect which relates to motor vehicle safety exists in certain 2011-2013 Mazda6 vehicles, produced from July 20, 2010 through August 24, 2012, and originally sold in, or currently or previously registered in salt belt states listed below.

Connecticut	Delaware	District of Columbia	Illinois	Indiana
Iowa	Kentucky	Maine	Maryland	Massachusetts
Michigan	Minnesota	Missouri	New Hampshire	New Jersey
New York	Ohio	Pennsylvania	Rhode Island	Vermont
Virginia	West Virginia	Wisconsin		

If you are a recipient of this notice, your vehicle is included in this recall. A recall notification was sent between March-June 2019 to you or the prior registered owner. Your vehicle is still unrepaired and included in this Safety Recall. We advise you to review Mazda's statement on COVID-19 for the latest information (link: <https://www.mazdausa.com/covid-19-news>). If you need assistance in getting your vehicle repaired, please contact the Customer Experience Center at (800) 222-5500, option #6 or email at MazdaCustomerExperience@mazdausa.com.

What is the problem?

On certain subject Mazda6 vehicles in salt belt states, it is possible the front cross member may be corroded due to suspected insufficient paint coating. Continued use of the vehicle may allow the corrosion to progress and support of the right lower control arm to decrease. Passing over a pothole may result in breakage of the cross member and reduced steering control, increasing the risk of a crash.

What will Mazda do?

Protect What is Important to You

Your Mazda dealer will inspect the condition of the front cross member of your vehicle, and determine if it passes the inspection criteria. According to the result of the inspection, one of the actions below will be taken.

- If the cross member passes inspection, the installation of a support brace and an air conditioner drain hose, and the application of a cavity wax to protect the front cross member will be performed. The repairs will take approximately three hours to complete.
- If the cross member fails the inspection, the front cross member will be replaced, and the air conditioner drain hose will be installed. The repairs will take approximately six hours to complete.

Mazda will provide alternate transportation, if needed, when your vehicle is at an authorized Mazda dealership for a recall repair. Schedule an appointment with an authorized Mazda dealer so they can discuss and accommodate your needs.

The inspection and repair will be performed on your vehicle at no cost to you.
