This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Jayco has decided that a defect, which relates to motor vehicle safety, exists in certain Model Year 2019 Eagle travel trailers, Eagle and Eagle HT fifth wheels.

***Reason for this recall***                      The over the range microwave/vent hood combination does not vent to the outside of the trailer. Operating the range without proper ventilation, may not provide an adequate exchange of fresh air. This could lead to a build-up of carbon monoxide inside the trailer, which could result in carbon monoxide poisoning or asphyxiation.

***Recall Remedy***                              Modify the vent hood to vent to the outside of the trailer.

***What we need you to do***                              Please contact an authorized Dealer as soon as possible to schedule an appointment. The Recall Remedy is free of charge and will take approximately 90 Minutes to complete.

If you had this repair completed prior to receipt of this recall notice, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall.
