Robocall

Polaris is contacting you about a Safety Recall Notice regarding your Polaris Slingshot which was published in December 2019.

Polaris has determined that the vehicle's electrical current requirements may exceed the capability of the battery fuse block terminals under certain conditions which could lead to terminal damage, resulting in a loss of forward and rear lighting, instrument cluster, and power steering assist, increasing the risk of a crash. Your Polaris dealer has been authorized to complete the necessary repairs outlined in Safety Recall T-19-01. Please contact your Polaris dealer as soon as possible to schedule a free recall service repair. If you no longer own the vehicle or have already had this work completed, please disregard this message.

Thank you!
