IMPORTANT SAFETY RECALL

March 2019

This notice applies to your vehicle, **VIN:** _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2016 – 2018 model year Cadillac CTS and 2017 model year Chevrolet Camaro, Corvette, and Cadillac ATS vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM safety recall N182182760.

Why is your vehicle being recalled?

These vehicles may experience a loss of electric power steering (“EPS”) assist while driving. Loss of EPS assist may last an entire ignition cycle, but may return once the vehicle is restarted. Customers may experience this condition during subsequent ignition cycles. If power steering assist is lost, manual steering functionality is retained but would require increased steering effort, particularly at lower speeds, increasing the risk of a crash.

What will we do?

Parts to repair your vehicle are not currently available, but when parts are available, your GM dealer will repair or replace the power steering gear assembly. This service will be performed for you **at no charge**.

We are working as quickly as possible to correct this condition. When parts are available, we will send you another letter asking you to take your vehicle to your GM dealer to have your vehicle serviced. You can also check the status of this recall at: <https://my.gm.com/recalls>. If you have already paid for repairs for this condition, you may submit those charges using the reimbursement request form that will be provided with the next letter.

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
