IMPORTANT SAFETY RECALL

Transmission Shift Cable Bushing

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain [2013 - 2016 Model Year (PF) Dodge Dart] vehicles equipped with a 6-speed automatic transmission.

WHY DOES MY VEHICLE NEED REPAIRS?

The transmission shift cable on your vehicle ^[1] may have been built with a shifter cable bushing on the transmission end of the shifter which can deteriorate and become detached from the transmission. This condition can result in the inability of the driver to actually shift the transmission, even though the driver may move the shifter handle. The true transmission gear position will be displayed on the instrument cluster and on the display next to the shifter. If the driver's door is opened while the transmission is not in "PARK", the vehicle not in "PARK" and door ajar messages will display on the instrument cluster and audible chimes will sound. **If these warnings are not heeded, unintended vehicle movement and vehicle crash can occur.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

The remedy for this condition is not currently available. We are making every effort to finalize the remedy as quickly as possible, and will service your vehicle free of charge (parts and labor).

FCA US will contact you again, by mail, with a follow-up recall notice when the remedy is available. Once you receive your follow-up notice, simply contact your Chrysler, Jeep®, Dodge or RAM dealer right away to schedule a service appointment ^[2]. Additional options for your next steps are included on the left side of this notification. We appreciate your patience.

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit www.fcarecallreimbursement.com to submit your reimbursement request online ^[3]. Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.

Customer Assistance/Field Operations
FCA US LLC
