IMPORTANT SAFETY RECALL – NHTSA Recall No. 19V-696

**This notice applies to Your Lamborghini Aventador S with the VIN
XXXXXXXXXXXXXXXXXX**

Dear Lamborghini Owner, Lessee,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Automobili Lamborghini S.p.A. has decided that a defect, which relates to motor vehicle safety, exists in certain Model Year 2017-2019 Aventador S Coupè and Roadster vehicles. Our records indicate that you are the owner of a vehicle in this recall.

What is the issue?

The affected vehicles might, under certain driving conditions (accelerator pedal released in the idle approach to a stop) present an engine stall event without warning. An engine stall can increase the risk of a crash. In the mentioned conditions, the engine management software doesn't assure the idle minimum revs in order to maintain the engine running with consequent possible engine stall.

The engine can switch off approaching a stop at idle, increasing the risk of a crash. However, it is still possible to restart the engine after the problem occurrence

For all the reason set forth above, it is therefore necessary to update these vehicles. If you are not the only driver of this vehicle, please advise all other drivers and passengers of this important information.

What Do You Need to Do?

The software update needed to repair this condition is not yet available. Once the update becomes available, Lamborghini will send you a separate letter with further instructions on how you can make an appointment with your authorized Lamborghini dealer to have the vehicle software updated, free of charge.
