Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in the vehicles listed above. As a result, Keystone RV is conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

***Reason for  
this recall***

It has been decided that the vehicles in the recall population may not have sufficient tire clearance to the floor. Under certain loading and road conditions during travel, the tire may come in contact with the underside of the floor causing damage to the floor covering. Over time this condition can lead to a tire failure which can cause property damage and poor vehicle handling increasing the risk of a crash.

***What we  
will do***

Keystone representatives have been in contact with the staff at your selling dealership regarding this situation. The remedy is to install a suspension lift kit to the unit. The service and parts required for this corrective action will be provided at no charge to you.

***What we  
need you to  
do***

As soon as possible, please make an appointment to have your RV serviced by your dealership. The labor time to perform this correction is approximately 2 hours. Please ask your dealer if you wish to know how much additional time will be needed to schedule and process your RV for this repair.

***If you have  
questions***

Your dealer is best equipped to obtain parts and provide service to ensure your RV is corrected as promptly as possible. Please contact Keystone Customer service if your dealer is unable to assist or if you take your RV to your dealer on the agreed service date, and the dealer does not remedy the condition within a reasonable amount of time, or without charge to you.
