

**Vehicle RECALL Reminder**  
**Your vehicle is subject to a safety recall**

Your alternator harness may have been damaged during installation.

As a result, an electrical short may occur and cause abnormal vehicle operation, and may potentially lead to a fire. Nissan notified owners of this recall beginning in July 2019.

Please contact a Nissan Dealer now to receive the free recall repair (recall ID PC673).

Thank you for being a Nissan customer.
