RECALL 19V-692 SOCKET FOR INPUT SHAFT

1/2" Drive 6-Point SAE 1-1/4" Flank Drive® Shallow Impact Socket

Snap-on

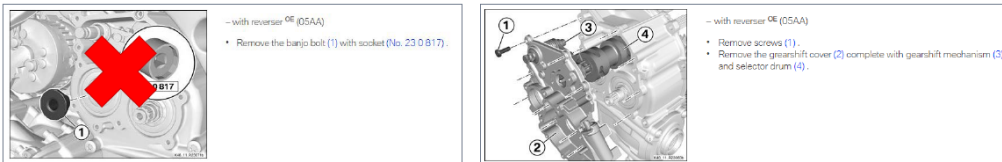

1. Locally source a 1 ¼ six point socket
2. Sand or grind facing surface flat to insure maximum contact.

Item
IM400

3. Skip removal of input shaft banjo bolt in step #46 and remove banjo bolt once gearshift cover is removed after step #55

4. Install and torque new bolt (while securing opposite end of the shaft) before reinstalling the gearshift cover.
