

Questions and answers

Lamborghini Aventador S (all models Coupé and Roadster) – model year 2017 – 2019

“Engine stall at idle software update”

■ What is the issue with the affected vehicles?

The affected vehicles might, under certain driving conditions (accelerator pedal released in the idle approach to a stop) present an engine stall event without warning.

■ What is the cause of this condition?

In some conditions, the engine management software doesn't assure the idle minimum revs in order to maintain the engine running.

■ What effect does the condition have?

The engine can switch off approaching a stop at idle, increasing the risk of an accident. However, it is still possible to restart the engine after the problem occurrence.

■ How can the condition be identified?

No particular customer perception just before the stall.

Is there any risk for the car occupants?

Automobili Lamborghini S.p.A. is not aware of any accidents or other incidents resulting in injury to a person or damage to property.

■ Which vehicles are affected?

Lamborghini Aventador S (all models Coupé and Roadster), model year 2017 – 2019.

■ How many vehicles are affected in US?

441 units.

■ Which VIN numbers are affected?

From ZHWUG4ZD6HLA05931 to ZHWUV4ZD4KLA08937; manufactured from December 2016 to June 2019.

■ What exactly needs to be updated on the car?

The engine software.

■ How long will the repair work take?

Normally, the repair work will take 1 hour.

■ Will Automobili Lamborghini S.p.A. bear the costs of the repair work?

The costs of this campaign will be borne entirely by Automobili Lamborghini S.p.A.

■ Where can I have the repair work carried out ?

Any authorized Lamborghini dealer and Service point worldwide.

■ Is it necessary to make an appointment at the workshop?

Yes, customer should contact an authorized Lamborghini dealer or Service point.
