4. Percentage of Vehicles Estimated to Actually Contain the Defect:

Not applicable at this time.

5. Description:

The subject vehicles are equipped with front passenger or driver air bag inflators as a “like-for-like” replacement under a prior recall which contain a non-desiccated, phase stabilized ammonium nitrate propellant. Under the Amended Consent Order of May 2016 between Takata and NHTSA, Takata is required to make a series of safety defect decisions when the inflators become defective and file Defect Information Reports (DIRs). The scheduled Takata DIRs that affect the subject vehicles will not occur until late 2019. However, in consideration of a sufficient supply of final remedy inflators, and upon discussion with the Agency, Toyota is accelerating the launch of the remedy for these vehicles in advance of the Takata decisions. Toyota will amend this report at the time Takata files its DIR to acknowledge Takata’s defect decision.

6. Chronology of Principal Events:

October 11, 2019 – In consideration of a sufficient supply of final remedy inflators and upon discussion with the Agency, Toyota decided to conduct a campaign to replace the air bag inflator or the air bag assembly on certain Toyota and Lexus vehicles.

7. Description of Corrective Repair Action:

All known owners of the affected Toyota and Lexus vehicles will be notified by first class mail to return their vehicles to a Toyota or Lexus dealer. Depending on the vehicle model, dealers will replace the front passenger or driver airbag inflator or airbag assembly.

Reimbursement Plan for pre-notification remedies

The owner letter will instruct vehicle owners who have paid to have this condition remedied prior to this campaign to seek reimbursement pursuant to Toyota's General Reimbursement Plan.

8. Recall Schedule:

Notifications to owners of the affected vehicles will begin by Mid-November, 2019. A copy of the draft owner notification letter will be submitted as soon as available. It will be in accordance with the provisions of Part 577 even though Takata's defect decision for these vehicles has not yet been made.

9. Distributor/Dealer Notification Schedule:

Notifications to distributors/dealers will be sent on October 17, 2019. Copies of dealer communications will be submitted as they are issued.

10. Manufacturer's Campaign Number:
