Subject: Pressure Relief Devices May Not Vent

Dear Mr. Forgas:

This letter serves to acknowledge McNeilus Truck & Manufacturing, Inc.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

AGILITY FUEL SYSTEMS/CNG FUEL SYSTEM/9999
AGILITY FUEL SYSTEMS/CNG PRESSURE RELIEF DEVIC/9999

Mfr's Report Date: May 8, 2020

NHTSA Campaign Number: 20E-030

Components:

FUEL SYSTEM, OTHER:STORAGE:TANK ASSEMBLY:PRESSURE RELIEF DEVICES

Potential Number of Units Affected: 100

Problem Description:

McNeilus Truck & Manufacturing, Inc. (McNeilus) is recalling certain CNG Fuel Systems that it sold as aftermarket parts. These systems, part number 2702100, include an EMER thermally activated pressure relief device. The pressure relief devices (PRDs) may not vent the system when exposed to heat, potentially resulting in the system rupturing.

Consequence:

If the fuel system ruptures from exposure to heat, there may be an increased risk of injury.

Remedy:

McNeilus will work with Agility to notify customers and will replace the PRDs, free of charge. The manufacturer has not yet provided a notification schedule. Owners may contact Agility customer service at 1-949-267-7745 or McNeilus customer service at 1-888-686-7278.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

NHTSA is missing critical, required information for this safety recall. This information must be supplied through the NHTSA Recalls Portal within 5 working days of confirming its accuracy:

- Your company must supply the estimated date(s) for which it will notify owners regarding this safety recall. If your company subsequently becomes aware that either the beginning or the completion dates reported to the agency for any of the notifications will be delayed by more than two weeks, your company shall promptly advise the agency of the delay and the reasons therefore, and furnish a revised estimate (49 CFR 573.6 (c)(8)(ii)).

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Michelle Rice who may be reached by phone at (202) 366-1060, or by email at michelle.rice@dot.gov. We look forward to working with you.

Sincerely,

Joshua Neff
