Subject: Utility Compartment Door Latch May Become Locked

Dear Ms. Wolfe:

This letter serves to acknowledge Triple E Recreational Vehicles's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

TRIPLE E/UNITY/2020

Mfr's Report Date: May 22, 2020

NHTSA Campaign Number: 20V-299

Components:

EQUIPMENT:RECREATIONAL VEHICLE:LPG SYSTEMS
STRUCTURE:BODY

Potential Number of Units Affected: 61

Problem Description:

Triple E Recreational Vehicles (Triple E) is recalling certain 2020 Unity travel trailers, model U24RL. The utility compartment's inner latch mechanism may rotate due to vehicle motion, becoming locked.

Consequence:

A locked utility compartment prevents access to the liquid propane (LP) shutoff valve. In the event of a propane leak at the regulator, this may increase the risk of a fire in the presence of an ignition source.

Remedy:

Triple E will notify owners, and dealers will repair the utility compartment latch mechanism, free of charge. This recall is expected to begin in June 2020. Owners may contact Triple E customer service at 1-877-992-9906. Triple E's number for this recall is CA#9681-1.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Triple E's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Michelle Rice who may be reached by phone at (202) 366-1060, or by email at michelle.rice@dot.gov. We look forward to working with you.

Sincerely,

Joshua Neff
Chief, Recall Management Division
