Subject: Drive Shaft May Corrode and Fail

Dear Mr. Chang:

This letter serves to acknowledge Honda (American Honda Motor Co.)'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

ACURA/ILX/2013-2015
ACURA/ILX HYBRID/2013
HONDA/CIVIC HYBRID/2012
HONDA/FIT/2007-2014

Mfr's Report Date: December 10, 2020

NHTSA Campaign Number: 20V-770

Components:

POWER TRAIN:DRIVELINE:DRIVESHAFT

Potential Number of Units Affected: 210,000

Problem Description:

Honda (American Honda Motor Co.) is recalling certain 2013-2015 Acura ILX, 2013 Acura ILX Hybrid, 2012 Honda Civic Hybrid, and 2007-2008 Honda Fit vehicles with a manual transmission and 2009-2014 Honda Fit vehicles originally sold, or ever registered, in Connecticut, Delaware, District of Columbia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and Wisconsin. The drive shafts' protective coating may not have been applied properly during manufacturing, making it more susceptible to damage from road salt, or other contaminants, and potentially cause it to break.

Consequence:

A broken drive shaft may cause a sudden loss of drive power. The vehicle could also roll away if the parking brake has not been applied before the vehicle has been exited. Either condition can increase the risk of a crash or injury.

Remedy:

Honda will notify owners, and dealers will inspect the drive shafts, replacing either the left or right drive shaft, if necessary, free of charge. The recall is expected to begin February 1, 2021. Owners may contact Honda customer service at 1-888-234-2138. Honda's numbers for this recall are E9B and A9A.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please ensure the following requirements are met:

The total number of products potentially containing the defect or noncompliance (49 CFR 573.6 (c)(3)).

AMENDED 573 REQUIRED.

Please submit what will be Honda's procedure for addressing corrosion-related driveshaft failure in vehicles outside of the included states and the procedure for addressing corrosion-related driveshaft failure in vehicles that previously were inspected and deemed to not need a driveshaft replacement.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Jennifer Kruger who may be reached by phone at (202) 366-2461, or by email at jennifer.kruger@dot.gov. We look forward to working with you.

Sincerely,

Joshua Neff
