Chronology :

On 6/17/2020 During a routine quality inspection at the manufacturing plant it was found that the propane line was routed around 2 sharp edges. The plant began to investigate and alerted Forest River's Office of Corporate Compliance (OCC).

On 6/22/2020 The plant began reviewing production records along with a product change notice that captures when the new rubber propane manifold started to be used in production.

On 6/26/2020 Forest River's Corporate Recall Committee voted to recall, and a Stop Sale Notice will be issued.

Description of Remedy :

Description of Remedy Program : Forest River will provide all parts, labor and instructions free of charge to the consumer to reroute the propane line or replace if necessary. An authorized Forest River Dealer or Service Center will need to perform the repairs.

How Remedy Component Differs from Recalled Component : The propane line will now be routed away from sharp edges.

Identify How/When Recall Condition was Corrected in Production : On 6/17/2020 the propane hose was rerouted to avoid sharp metal edges around the water heater.

Recall Schedule :

Description of Recall Schedule : Forest River has the utmost urgency in our recalls. Forest River will send suspected VIN numbers to our third party vendor that is licensed to pull data on the current owner of the vehicles (as needed) once a formal NHTSA I.D. is provided. Forest River intends on pushing the mailing out as soon as NHTSA provides any correction(s) and an Acknowledgement Letter.
