IMPORTANT SAFETY RECALL 20E-077

Dear Distributor or Reseller of SL1 LED Headlamp Bulbs:

This notice is sent to you in accordance with the requirements of the National Highway Traffic and Motor Vehicle Safety Act and Part 573 of the Code of Federal Regulations.

Diode Dynamics has determined that SL1 LED replacement headlamp bulbs sold by it (Model Numbers DD0215P, DD0216P, DD0217P, DD0218P, DD0219P, DD0323P, and DD0340P) fail to conform with Federal Motor Vehicle Safety (FMVSS) Standard No. 108 "Lamps, Reflective Devices, and Associated Equipment." The bulbs do not meet dimensional requirements of replacement light sources and exceed limitations on luminous flux set forth in the standard and may cause increased or excessive glare for oncoming drivers. There are no known incidents related to this regulatory non-conformance. SL1 fog light bulbs are not subject to this recall and may continue to be sold by you.

Diode Dynamics is requesting that you post notice of this recall on your website and/or physical premises. We would also request that you provide us contact information for any consumer who purchased SL1 headlamp bulbs directly from you, and we will notify these individuals of the recall, either by U.S. mail and/or e-mail.

Diode Dynamics is offering to replace, at no charge to consumers, the SL1 LED headlamp bulbs with halogen bulbs which comply with the requirements of FMVSS 108. To obtain replacement headlamp bulbs, consumers can go to: www.diodedynamics.com/recall and fill out the recall form located there. They will need to provide an original order number, receipt or other proof of purchase at the time they submit the form. Diode Dynamics will send both the replacement bulbs and a prepaid label, so consumers can send back the SL1 LED headlamp bulbs to Diode Dynamics in the same box in which the replacement bulbs are sent them, so we may properly dispose of the SL1 bulbs.

To the extent that you have any remaining SL1 LED headlamp bulbs in stock, please call your account manager at 314-205-3033, and we will provide a prepaid return authorization so that you may ship these back to Diode Dynamics for a full refund. We regret any inconvenience this may cause you. If Diode Dynamics fails to provide a refund to you for any SL1 headlamp bulbs you have remaining in stock, without charge to you, within a reasonable time after you request a return authorization, you may submit a written complaint to: Administrator, National Highway Traffic Safety Administration, 400 7th St., SW, Washington, DC 20590, or call 1-888-327.4236. Thank you for your attention to this important recall.
