Subject: Takata Airbag Return Interruption

We have experienced an issue with our Takata airbag return program. This issue may temporarily defer timing on dealers returning airbags. Please note we are working on this and believe it to be resolved in the near future. In the meantime, please store the airbag properly until pick-ups resume. Please store used airbags in a secure location indoors, in a dry and temperature controlled area. Do not store returnable airbags near any sources of water. Please refer to Document ID 868913 in Service Information for additional information.

A future communication will be sent once this has been resolved. We are sorry for any inconvenience this may cause. Thank you for your patience.
