Subject: Upcoming Safety Recall N202303140
Brake Line Routing
Application for Used Vehicle Working Capital Assistance Program (WCAP)

Models: 2019 Chevrolet Low Cab Forward 4500

To: All General Motors Medium Duty Dealers

On April 3, 2020, GM published a bulletin with an interim inspection procedure under GlobalConnect Message GCUS-3-1799 regarding safety recall N202303140.

The parts needed to complete the required repair are not yet available. However, the bulletin provides a functional inspection procedure that, if correctly performed, will allow dealers to identify those vehicles that do not require replacement of the brake line.

Involved vehicles that “pass” the inspection will require no further action and are immediately released from this field action.

Involved vehicles that “fail” the inspection that are in dealers’ possession (new or used vehicle inventory, GM Certified Used, courtesy transportation vehicles, dealer shuttle vehicles, etc.) must be held and not delivered to customers, dealer-traded, released to auction, used for demonstration purposes or any other dealer use until further instructions are received. All GM Certified Used vehicles currently in the dealers’ inventory within the Certified Pre-Owned Inventory System (CPOIS) will be de-certified.

This message is to inform dealers who have involved vehicles that “fail” the inspection in their inventory can now apply for the used vehicle Working Capital Assistance Program (“WCAP”) for safety recall N202303140.

Before proceeding with the application process described below, dealers must verify vehicle eligibility based on the program terms and guidelines that were provided in GM GlobalConnect Message GCUS-9-9188 dated March 10, 2020. Applications submitted on ineligible vehicles are subject to chargeback of any incentives paid to the dealer under the WCAP. Because compensation and tracking requires visibility into dealers’ inventory, dealers must also have agreed to a Dealer Data Share agreement with GM in order to receive any compensation under this program.

To apply for the WCAP for safety recall N202303140, dealers must access the GM Global Warranty Management (GWM) system and submit a “ZSET” warranty transaction using the labor code provided below for each eligible vehicle. This zero dollar special transaction type is the dealer’s application for compensation and constitutes a representation from the dealer that the vehicle is eligible for WCAP assistance.

Note: Acceptance of the warranty transaction does not ensure vehicle eligibility or guarantee the provision of any assistance as defined by program terms and guidelines.

Labor Code	Description	Labor Time	Trans Code
9800051	Working Capital Assistance for Safety Recall N202303140	N/A	ZSET

To be eligible for the WCAP, a vehicle must be in dealer inventory at the time the related field action bulletin is released. If a vehicle has been delivered, wholesaled or otherwise disposed of prior to release of the bulletin, the vehicle is not eligible for assistance. Additionally, recalled vehicles taken in on trade may be eligible for assistance if the dealer immediately reports the vehicle in used vehicle inventory via its Dealer Management System (DMS) and makes application through the GWM system.

To ensure that GM is receiving daily inventory information, which is necessary to process payments and make eligibility determinations under the WCAP, the dealer's vehicles must be properly identified in the dealership's DMS. A daily feed of this information is provided to GM through the Dealer Data Share (DDS) agreement.

Beginning with the 1st quarter of 2019, all WCAP payments will be facilitated through the Global Warranty Management (GWM) system. For each eligible vehicle, a qualifying dealer will submit for WCAP vehicle enrollment with a "ZSET" transaction type and for reimbursement with a "ZFAT" transaction type both through the GWM system. If approved, a WCAP credit for that vehicle will be issued through the GWM system similar to any other warranty credit. WCAP submission instructions and the required labor code will also be provided in the appropriate field action bulletin. Each WCAP transaction being credited will be clearly identified on the dealer's daily credit memo.

In order to receive payment, a dealer must have timely reported the vehicle in used vehicle inventory, retained the vehicle until the related field action bulletin is released, and properly applied for the WCAP payment. The vehicle must also be otherwise eligible under WCAP rules and guidelines.

GM reserves the right to amend, modify, terminate, or cancel this program at any time in its sole discretion.
