Attention: All Dealer Principals

Kia Motors America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign to replace the Motor Driven Power Steering (MDPS) Assembly on some 2020 MY Kia Stinger vehicles equipped with the 2.0L Turbo-GDI engine manufactured from October 7, 2019 through December 12, 2019. The Rack & Ball/Nut Assembly (RBNA), an internal component of the Rack Mounted Motor Driven Power Steering (MDPS) Assembly, may have been manufactured incorrectly. Over time, the incorrectly manufactured RBNA component may fracture, causing the steering to lock or become difficult to steer while driving, thereby increasing the risk of a crash.

The Technical Service Bulletin that provides vehicle inspection and repair procedures, affected VIN production range, and warranty claim information will be posted on the Kia Global Information System (KGIS) at www.kiatechinfo.com in the week of **August 24, 2020**.

Your Service Manager was sent a draft copy of the owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of affected 2020 MY Kia Stinger vehicles. Kia will notify the affected vehicle owners on **August 28, 2020**.

NHTSA ADVISORY: It is a violation of Federal law for a dealer to deliver a new motor vehicle covered by this notification under a sale or lease until the defect is remedied.
