Dear Dealer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act and is important for your safety.

Thor Motor Coach (TMC) has decided that a safety defect exists in certain TMC motorhomes based upon notification by Mercedes-Benz that a defect which relates to motor vehicle safety exists in certain MB chassis that were used to manufacture your TMC motorhome. MB's recall number is 2020070011. To assist MB in identifying the final vehicles manufactured, TMC is also conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

On certain model year 2020/2021 Daybreak, Four Winds, Delano, Gemini, Quantum, Tiburon, Chateau Citation, Compass, Chateau, Siesta, Freedom Elite, and Synergy motorhomes built on a Sprinter chassis that is equipped with front swivel-seats, the wires in the seat wiring harness could become jammed and damaged in the swivel-seat frame. In that case, the operation of the side airbag within the driver and/or front passenger seats could be adversely affected, which could cause the side airbag to deploy inadvertently or not deploy as designed in the event of a crash, increasing the risk of injury to vehicle occupants.

Mercedes-Benz will be handling the repair of your vehicle at an authorized dealer. The dealer will inspect the routing of the front seat (left/right) seat wiring harnesses and will repair as necessary. This service will be provided free of charge. The minimum repair time is approximately 2 hours.
