

New Safety Recall Advanced Communication – W67

FCA US LLC (FCA US) has announced a safety recall on certain 2019 and 2020 Model Year (DT) Ram 1500 Pickup, 2019 Model Year (DJ) Ram 2500 Pickup, 2019 Model Year (JL) Jeep Wrangler, and 2020 Model Year (JT) Jeep Gladiator vehicles.

VINs identified as being involved in this campaign are currently live and searchable.
Stop sale is in effect for the above-identified vehicles.

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a front seat belt retractor containing an improperly formed wave disc which has reduced internal friction resulting in reduced energy management capability. A seat belt retractor with reduced energy management capability may not perform as expected during a crash, which can increase the potential for injury to the occupant.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to replace the suspect seat belt retractor. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 4th Quarter of 2020.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
