Dear Dealer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act and The Canadian Motor Vehicle Safety Act and is important for your safety.

Thor Motor Coach (TMC) decided that a defect which relates to motor vehicle safety exists in certain models of the below listed motorhomes.

It has been discovered that certain model year model year 2021 Four Winds motorhomes are equipped with a Dometic S31, R1731, AND R2131 Series COOKING STOVES that were manufactured between May of 2018 and July 9, 2020. The user of the motorhome can become aware of the potential defect when, after some period of usage, begins to smell gas near the stove when it is not in operation; if the user or other servicer then attempts to tighten the bolts that hold the valves under the stove burners, the tightening action can cause irreversible damage to the o-ring seal at the valve(s), resulting in a continuous gas leak. Such leak can result in a fire.

The remedy will be available for field installation at Dometic authorized service centers or participating OEM locations after December 1, 2020 and will be installed at **NO COST** to you. The Remedy kit consists of gaskets, washers, and thread locking bolts. The Dometic Authorized Service Center will install the remedy for you. This repair will take approximately one (1) hour.
