IMPORTANT SAFETY RECALL

(Follow-Up Notice)

(NHTSA Recall Number: 20V-101)
This notice applies to your vehicle: **(Insert VIN)**

June 16, 2020

Dear Kia Sedona Owner:

Kia has identified a defect in your vehicle which relates to motor vehicle safety

This notice is a follow-up letter sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Kia Motors has decided that a defect which relates to motor vehicle safety exists in all 2011-2012 MY Kia Sedona vehicles. The defect can result in a fire in your vehicle's engine compartment, thus increasing the risk of injury. Our records indicate that you own or lease one of the potentially affected vehicles.

What Is The Problem?

The fuel rail may develop a small heat induced crack from what is believed to be a result of exposure to heat generated within the engine compartment under certain circumstances. If the fuel rail develops a crack, fuel smell and eventually a fuel leak can occur. Leaking fuel increases the risk of a fire, thereby increasing the risk of injury.

Kia Will Replace The Fuel Rail At No Cost For Parts Or Labor To You.

Kia has advised its authorized dealers to replace the fuel rail in your vehicle with a new one. The repair work will be performed at Kia's expense at no cost to you. The actual time required to perform the repair will be approximately 2 to 3 hour(s). However, your vehicle may be needed longer, and, therefore, we recommend scheduling a service appointment to minimize inconvenience. Please contact your dealer for an exact estimate of how long they may need your vehicle for this repair.

What Should You Do?

- In the interest of the safety of your passengers, as well as your own safety, please immediately contact your Kia dealer to arrange for the recall repair to be conducted.
- If fuel smell is detected, please contact the closest authorized Kia dealership to have your vehicle towed to the dealer.
