Dear Mercedes-Benz Sprinter Owner or Lessee:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2019 Sprinter vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

**What is the CONCERN?**

MBAG determined that on certain Mercedes-Benz Sprinter vans, the spare wheel label lists the maximum speed with a metric speed of 55 kilometers per hour (kph) when it should indicate a maximum speed of 34 miles per hour (mph). As a result, the driver could misinterpret the metric speed listed on the spare wheel as indicating miles per hour and operate the vehicle with the spare wheel at higher speeds than the tire can withstand, potentially increasing the risk of a crash. There is no issue with the performance of the tire itself.

**What will your DEALER DO?**

An authorized Mercedes-Benz Sprinter dealer will remove the label with the maximum metric speed specification and replace it with the label with the correct maximum speed information indicated in miles per hour. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **approximately 30 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz Sprinter dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

**What should YOU DO?**
