Dear Mercedes-Benz Sprinter Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG (“MBAG”), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2019 Sprinter vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

**What is the CONCERN?**

MBAG determined that certain Mercedes-Benz Sprinter vans with automatic transmission does not correctly specify certain conditions under which the automatic parking function (“Auto-P”) operates. The Operator’s Manual describes certain functions which would automatically engage the park position “P” if (1) the driver opens the seat belt buckle or (2) the driver leaves the seat when the vehicle is stationary or driving at very low speed. However, this functionality is not available in the affected Sprinter vehicles. Should a customer rely on the Auto-P function as described in the Operator’s Manual, the possibility of vehicle rollaway or movement cannot be ruled out which could increase the risk of a crash.

**What will your DEALER DO?**

An authorized Mercedes-Benz Sprinter dealer will add a supplementary booklet with a correct description of the Auto-P function to the Operator’s Manual, which is already in the vehicle. The supplementary booklet is also available on-line at [www.mbvans.com/sprinter/owners-resources/owner-manuals](http://www.mbvans.com/sprinter/owners-resources/owner-manuals). **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **approximately 10 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz Sprinter dealer will also check for other repair measures which might be applicable to your vehicle which may increase the required working time.

**What should YOU DO?**
