Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2020 GLB-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

In certain MY 2020 GLB-Class vehicles, the vehicle body might not be sealed in the area of the front wheel wells according to current production specifications. Under certain conditions, it is possible for water to enter from the wheel wells into the front occupant foot wells. This could impair the functionality of the control units and other electrical components installed in these areas, or possibly lead to an engine stall, increasing the risk of a crash. Occupants might observe wet carpets in the front foot wells and/or fogged windows as an indication of the condition.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will seal the vehicle body in the subject area and check the front foot wells for water intrusion. In the event the water intrusion is confirmed, the necessary repair will be carried out. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be less than 2 hours, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures that might be applicable to your vehicle which may increase the required working time.

What should YOU DO?
