Subject: Safety Recall 70H7 - Instrument Panel/Passenger Airbag Deployment

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that a defect, which relates to motor vehicle safety, exists in certain 2019 model year Audi vehicles. Our records show that you are the owner of a vehicle affected by this action.

What is the issue? Based on production data review, the passenger airbag score-line in the instrument panel may potentially not have been performed according to specification on three (3) vehicles worldwide. An incorrect passenger airbag score-line in the instrument panel may impact airbag opening and inflation in case of a crash, or cause plastic parts to detach and enter the passenger compartment. This may lead to an increased risk of injury in a crash.

What will we do? To correct this defect, your authorized Audi dealer will inspect and, if necessary, replace the instrument panel.

- The inspection will take about an hour to complete.
- If your vehicle needs an instrument panel, additional time will be required for ordering and installation.
- Both the inspection and replacement (if necessary) will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

What should you do? Please contact your authorized Audi dealer without delay to schedule this recall repair. For your convenience, you can also visit www.audiusa.com and click on the "Find a Dealer" link to locate a dealer near you and schedule this service.
