Subject: Safety Recall 70H6 - Leather Instrument Panel/Passenger Airbag Deployment

Dear Audi Owner,

What is the issue? Leather covered instrument panels produced during a specific period were not manufactured according to specification by the supplier. As a result, the predetermined split lines for the passenger airbag may not open as designed in the event of a crash, potentially reducing the restraint effect of the passenger airbag. In a crash with passenger airbag deployment, the restraint capacity of the passenger airbag may be reduced and small plastic parts may enter the passenger compartment. This may lead to an increased risk of injury.

What will we do? To correct this defect, your authorized Audi dealer will replace the instrument panel. This work will take about a day to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

What should you do? Please contact your authorized Audi dealer without delay to schedule this recall repair. For your convenience, you can also visit www.audiusa.com and click on the "Find a Dealer" link to locate a dealer near you and schedule this service.
