

IMPORTANT SAFETY RECALL

June 2020

This notice applies to your vehicle, **VIN:** _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that 2019-2020 model year Chevrolet Medium Duty 4500HD/5500HD/6500HD vehicles fail to conform to S5.3.1(c) of Federal Motor Vehicle Safety Standard (FMVSS) No. 105, “Hydraulic and Electric Brake Systems.” As a result, GM is conducting a recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM recall N202305070.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

If your vehicle’s body control module (BCM) loses communication with the vehicle’s electronic brake control module (EBCM), the vehicle’s antilock brake system (ABS) malfunction indicator lamp (MIL) will not illuminate as required by FMVSS 105. The vehicle’s service-engine-soon MIL will illuminate. If you are unaware that the ABS system is not functioning properly, you may not have it serviced, increasing the risk of a crash.

What will we do?

Your GM dealer will update the software calibration for the body control module (BCM). This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual inspection and service correction time of approximately 35 minutes.

What should you do?

You should contact your GM dealer to arrange a service appointment as soon as possible.

Did you already pay for this repair?
