Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2019 A-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

On certain MY 2019 A-Class vehicles, the air conditioning drain hose might not be installed according to current production specifications. In this case, condensation from the air conditioning system might enter through the driver and passenger side footwells or into the center tunnel, potentially causing corrosion and/or short circuits of the electrical components located in this area. Corrosion and/or short circuits of the components could result in malfunctions of the supplemental restraint system (SRS), failure to start, activation of the limp-home mode while driving, and an impairment of other features, leading to an increased risk of injury or a crash.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will check the installation of the air conditioning drain hose and correct it, if necessary. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be less than 30 minutes, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle which may increase the required working time.

What should YOU DO?

To find the most convenient authorized Mercedes-Benz dealer from your smartphone, scan the QR code to the left.
