IMPORTANT SAFETY RECALL

October 2020

This notice applies to your vehicle, VIN: _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2020 model-year Chevrolet Corvette vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM safety recall N202307690.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

Your vehicle's driver's side seatbelt pretensioner may not properly lock following normal deployment of the pretensioner. As a result, the seatbelt retractor may not properly restrain the driver in a high-speed impact. If the seatbelt does not lock during a high-speed crash, the driver may not be restrained as designed, increasing the risk of injury.

What will we do?

Your GM dealer will replace the driver-side seat-belt retractor. This service will be performed for you at no charge. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately one hour and 15 minutes.

What should you do?

You should contact your <DIV_DLR> dealer to arrange a service appointment as soon as possible.

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
