**SAFETY RECALL NOTIFICATION – C10118 – Vacuum Pump
NHTSA SAFETY RECALL – 20V645**

Vehicle Identification Number – 4UZBVG118KG [REDACTED]

Dear Mitsubishi Fuso Truck Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Mitsubishi Fuso Truck of America, Inc. has decided that a defect, which relates to motor vehicle safety, exists in the vacuum pump on certain 2019-2021 Model Year FECZT, FEC7T and FEC9T Mitsubishi Fuso trucks. On certain affected vehicles, the vacuum pump internal diaphragm may have been overheated by exhaust stud looseness remedied through Safety Recall C10114 (20V646). If the vehicle continues to be operated in this condition, the vacuum pump diaphragm could tear, causing a loss of vacuum. In the worst case, the vacuum loss could cause the power brake assist to become inoperative, resulting in extended braking distances and a crash without warning.

Continued on the back.
