Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2020-2021 GLE-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

In certain MY 2020-2021 GLE-Class vehicles with 5 passenger seating, in certain circumstances while buckling the seatbelt, the middle seatbelt buckle could be pushed down below the seat cushion. If the passenger is not able to retrieve the buckle, the affected seat would not have an available buckle for an occupant to properly fasten the seatbelt. If the passenger cannot fasten the seatbelt, the risk of injury in a crash would increase.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will secure the middle seatbelt buckle on the affected vehicles to prevent it from being pushed below the seat cushion. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be less than **30 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle which may increase the required working time.

What should YOU DO?
