Hyundai has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the VIN shown above. Hyundai is conducting a safety recall in the United States to address a condition of reduced braking performance due to a fault in the Integrated Electronic Brake unit in certain model year 2019 – 2021 Kona Electric and 2019 – 2020 Nexo Fuel Cell vehicles.

What is the problem?

The subject vehicles are equipped with an Integrated Electronic Brake (“IEB”) system that might illuminate the malfunction indicator lamp (“MIL”) and significantly reduce braking performance upon detection of an abnormal sensor signal. What should you do?

Please contact your nearest Hyundai dealer to schedule the recall repair as soon as possible.

The actual time required to perform the repair will take less than one hour, however your vehicle may be needed longer. Therefore, we recommend scheduling a service appointment to minimize inconvenience. If the Malfunction Indicator Light is illuminated in your vehicle, you should seek service at your Hyundai dealer as soon as possible.
