Subject: Safety Recall 27i6 – Terminal Cover

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that a defect, which relates to motor vehicle safety, exists in certain 2018-2019 model year Audi RS5 Coupe vehicles. Our records show that you are the owner of a vehicle affected by this action.

What is the issue? The affected vehicles were erroneously equipped with a plus (positive) terminal cover that might be less capable of assuring 12 V-power supply in a rear crash at approximately 50 mph. In case of a rear crash, it may be possible for the 12-volt power supply of the vehicle to become compromised.

This could result in not being possible to open the vehicle doors from the outside, or the hazard warning lights may not function due to a compromised electric power supply. This may lead to an increased risk of injury to vehicle occupants in a rear crash.

What will we do? To correct this defect, your authorized Audi dealer will replace the plus (positive) terminal cover. This work will take about half an hour to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

What should you do? Please contact your authorized Audi dealer without delay to schedule this recall repair. For your convenience, you can also visit www.audiusa.com and click on the “Find a Dealer” link to locate a dealer near you and schedule this service.
